Conference Presentation, 4 Parts

The Apostle Paul is very clear when he tells us that we are no longer under the rule of OT ceremonial law. At the same time, however, the ceremonial law was vital to the believers during the years before Christ. With this in mind, we can ask about the importance of the OT ceremonial law? How did God use it? What did he teach and show and explain to his people? What can NT believers, and congregations, learn from the ceremonial law given to Israel? And finally, how should we understand and apply the truth that there are no NT ceremonial laws?
