Why Choose MLC for Your MASTER'S DEGREE?

Here's What Our 2022 Graduates Had to Say

When I started this program, **I really wanted to grow in my faith.** MLC was a great opportunity for me to have a Christian master's program. It was also financially a great choice.

George Kellermann
MS in Education—Leadership

MLC's master's program has changed how I look at pretty much everything in the classroom. **Going through the coursework really opened my eyes**—in a good way—to reexamine not just the things that I do but more importantly why I'm doing them.

School Business Administration was my absolute favorite class in the principal program. It's a hard look at how we provide what our schools need as far as staffing and resources, **taking a different approach to the way that we historically do church and school budgeting.** It's a refreshing look at how to make the best of what we have with our resources and blessings.

Dr. Kristen Meyer
MA in Theological Studies

I've been blessed to get to know so many fellow called workers throughout the program, so it really has **changed the way that I relate to people across the synod.** It's opened up some amazing blessings and opportunities that have been so much fun to see God develop for me.

Do it immediately. It is definitely worth it. **It will definitely help your ministry.** It will grow you as a person. It is an excellent program to be a part of.

MLC's Early Childhood EDUCATOR SERIES

for a Comprehensive Understanding of Developmentally Appropriate Practice in Early Childhood

I take away so much from these courses, not just because of the content, but because of the way these **instructors present the material for real application**. I'm making lessons as assignments that I'm taking straight to my classroom.
